DETAILED ACTION

Election/Restrictions

1. Claims 9, 10, 12, 14, 17, and 18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species A-F, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 6/29/05.

Acknowledgments

2. Acknowledgment is made of the amendment filed 12/21/05.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 7, 8, 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Mabie et al. (US 3,877,713 A).

With respect to claims 1, 4, 5, 7, and 19, Mabie et al. discloses an elongated ski keel bar comprising a side surface with first and second lateral extensions defining a recessed portion, and a top surface that mates with a ski keel and would inherently alter the compaction of snow, as shown in figure 13.

With respect to claim 2, the ski keel is an intended purpose and the keel bar of Mabie et al. would match a keel with the same width as the keel bar.

With respect to claim 3, Mabie et al. discloses a notch recess, as shown in figure 13.

With respect to claim 16, Mabie et al. discloses insert 14 as being a carbide insert.

Allowable Subject Matter

5. Claims 6, 8, 11, 13, 15, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments filed 12/21/05 have been fully considered but they are not persuasive. With respect to the applicant's arguments concerning Mabie et al. not disclosing a recessed portion, the gap defined by the blade 14 and seating member 70 is considered to be the recessed portion. For these reasons the rejection stands.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
